ABOUT ME

Hi there! My name is Omar, and I'm currently studying at the Faculty of Business at Alexandria University. In the past, I worked as an Assistant Manager at the Virginia Hotel for three years, and then I moved on to work at a company called Copy and Print. There, I was responsible for repairing Xerox photocopier machines, which is where I discovered my passion for programming. Since then, I've been learning front-end , and I'm always eager to expand my knowledge and skills in this exciting field.

WORK EXPERIENCE

2019-2021

ENG DOCUMENT PHOTOCOPIERS

Copy and Print/ Alex

"I work as an engineer to repairing photocopiers for two years at "Copy and Print" company. I was responsible for

2017-2019
